trees the old
conventional way.

It's Less Time
Consuming, with
No Specialty Tools
required and it's
Re-usable.

Revolutionary

&

Innovative

TREE HUGGER®

TREE HUGGER® 2 x 4 "Fixed" Tree Staking Kit™

**Installed with a
standard 2 x 4
support member
and has a fixed
opening for
easy installation**

Kit Includes:

**3 TREE HUGGER®
Fixed
Tree Brace™
support holders**

**2 – 50" Stainless
Steel bands
with quick
engage clamps**

**3 Tree cushion
squares &
adhesive strips**

The TREE HUGGER® Tree Brace™ has reduced considerably the man time and eliminates almost all of the tools necessary including specialized tools.

TOP REASONS WHY:

1) Simple Installation

TREE HUGGER® is designed so that just about anyone can use the product effectively eliminating the need for skilled labor.

2) Time Efficiency

Staking of a tree normally takes anywhere from 12 to 20 minutes and sometimes up to two installers. With the TREE HUGGER® Tree Brace™ time is reduced in some scenarios less than 5 minutes and never requires more than one installer.

3) Cost of the Product

Since its not necessary to have specialty tools and or specialty equipment the cost of staking each tree is reduced significantly.

Our TREE HUGGER® Tree Brace™ technology and molding process now allows for a tree to be supported much easier, and simpler than ever.

**TREE HUGGER®
Adjustable
Tree Brace™**

TREE HUGGER® 2 x 4 “Adjustable” Tree Staking Kit™

*Installed with a
standard 2 x 4
support member
and has an
opening that
angles from
20° to 160°*

Kit Includes:

**3 TREE HUGGER®
Adjustable
Tree Brace™
support holders**

**2 – 50” Stainless
Steel bands
with quick
engagement clamps**

**3 Tree cushion
squares &
adhesive strips**

4) Strength and Safety.

TREE HUGGER® Tree Brace™ eliminates improper angles and improper workmanship to ensure stability.

5) Re-usable

TREE HUGGER® Tree Brace™ are molded from polypropylene and are durable to last a lifetime.

6) MADE IN THE USA
